Nelson Sells To Hahn, Prepares For Navy Duties

Three Physicians Remain On Staff of Local Hospital

Dr. L. D. Nelson announced this week that he has sold his equipment here and has turned his offices at the Southern Pacific Hotel Building over to Dr. George Hahn and will leave soon for active service in the Navy.

Dr. Hahn, who has maintained offices in the building over Sarge's, is having his new quarters remodeled and redecorated before moving in about two weeks. In the meantime, Dr. Nelson is packing his personal belongings preparatory to the move.

Dr. Nelson, who came here nearly five years ago to practice, was recently given an opportunity for a commission in the Navy and having been advised by his draft board that he could not expect deferment from the armed services, accepted and enlisted as a lieutenant. Last week he reported in San Francisco, took the required oath and equipped himself for a start of his naval duty on January 20.

Earned Reputation

During his time in Truckee, Dr. Nelson has gained a wide and enviable reputation as an outstanding physician and surgeon, and his assistance in the organization and erection of the new Tahoe Forest Hospital will not go unrecognized. He has earned the respect and admiration of his friends and associates and has proven himself a valuable man.

It was only a year ago this month that his efforts in behalf of the passengers stranded on a Southern Pacific streamliner near Emigrant Gap won him national acclaim. He fought his way through a blizzard, raging at times up to 100 miles an hour, to reach the sick and distraught passengers. And that was only one of the many fine examples he has set during his Truckee stay.

Local friends and patients will regret that Dr. and Mrs. Nelson do not plan to return following his tour of duty for Uncle Sam, as he will resume his orthopedic work as a specialty.

Dr. Hahn, a comparative newcomer to this area, served with the Air Force in Korea and Japan. He is expected to assume the work of Dr. Nelson as a physician for the Southern Pacific after necessary preliminaries.

Other Doctors

Other doctors now in the area and members of the staff at the Tahoe Forest Hospital are Dr. Joseph O'Neill, who recently opened new offices at Gateway Park Shopping Center after being only semi-active for the past year but who has years of general practice training, and Dr. Jose Nessim of Kings Beach, who has been practicing at Lake Tahoe and Truckee for the past two years with outstanding success.

While this means that the area will continue to have efficient and competent doctors to man its modern hospital, it does not mean that Dr. and Mrs. Nelson and their son, Douglas, will not be sorely missed by their legion of friends.

SKI VICTIMS ARE TREATED LOCALLY

Thirty-eight ski accident victims were treated at the Tahoe Forest Hospital since New Year's eve, John Wardman, administrator at the institution, reports.

Of these, ten were treated on the first, five on the second and 20 on the third. For the most part the injuries comprised fractures, Wardman said. Local victims were Leland Yip of Soda Springs and Billy Notley of Truckee, the latter having only a sprain.

CHAMBER MEETS HERE TONIGHT

A meeting of the Truckee Chamber of Commerce is scheduled for this evening at 6 o'clock at Brown's Cafe. A review of the Christmas program and a discussion of the winter parking situation will feature the meeting. President Cliff Ellis will preside.

CONTRACT SIGNED FOR NEW BRIDGE

The Nevada County board of supervisors this week approved the signing of contracts with da-Rosa-Ribal Inc., Dutch Flat, for putting up the new bridge across the Truckee River opposite Floriston. The firm's construction bid was accepted December 16.

The contract gives ten days' notice, after which the contractors will have 45 working days to complete the job. Stoppages caused by bad weather will be added to the 45-day period.

Local Names Are Drawn For Jury Duty This Year

Supervisor H. G. Loehr has presented the names of 35 local residents to County Clerk R. E. Deeble as potential veniremen for jury duty in the Nevada County Superior Court during 1953.

The list contains the names of 34 Truckee residents and one, Mrs. Clara A. Felesina, from Floriston.

The lists submitted by the five supervisors will be officially turned over to the court next Saturday for approval. Those from Truckee are William L. Allen, Alvena A. Bacharich, Angelo C. Besio, Ardo A. Carmitchel, Dorothy H. Crandall, Oliver J. Crandall, Harry P. Digesti, Alton T. Ellert, Clair G. Ellert, Estelle M. Englehart, Duane Freeman, Melba L. Giovannoni, Peter H. Greenhouse, Rose Kielhofer, Dick Moretta, Ethyl M. Osburn,

Edna J. Bernard, Thomas P. Bonano, Therisa B. Buddle, Steve Cozzi, Gladys I. Dolley, Lorrin W. Ferdinand,

Ignatius Firpo, S. A. Follett, Ira O. Gifford, James Ely Harris, Raymond L. Helgeson, Raymond E. Hintz, Malvin C. Ingwersen,

Martin Johnson, George Kaspian, Harold T. Langille, John J. McGlade, Victoria McIver.

ACCIDENTS ARE FEATURED HERE FOR PAST WEEK

Two people were injured seriously and a four months old baby escaped without harm when a car driven by James Mansfield Hage, 31, Campbell, Calif., skidded and plunged off Highway 40 near Farad at 5:30 p.m. Monday.

Mrs. Richard L. Hage, 29, is in the Tahoe Forest Hospital with severe head and face injuries and a broken right leg while the driver of the car, also in the local hospital, has a fractured left arm.

The woman was thrown from the car and landed under the Sierra Pacific Company flume which parallels the highway at the scene of the accident. The baby was found half way between the highway and flume but apparently was uninjured. State Patrolman Roy Stallard made the investigation.

Uproots Guardrail

Mrs. Bessie Juarez, 17, Milpitas, was treated at a Reno hospital Friday morning when a car driven by Filippi Juarez, 25, her brother in law, attempted to pass another car on the bridge at Hirschdale, skidded and was wrecked as it upset.

State Patrolman William Gautsche said the car hit the guard rail, tearing out 50 feet of the structure.

A passing motorist took the injured woman to the hospital. Four other people in the car were not seriously hurt.

Pedestrian Hurt

Alex Robinson, 37, 41B Riverside Housing, Stockton, who had been employed at Herlong, was cited for driving without due caution after a car he was driving struck and injured Mrs. Mary Katherine McCuen, 29, San Leandro, on Donner Summit last Thursday evening.

According to a report given to State Patrolman William Gautsche, Mrs. McCuen and a woman companion were walking east on the north side of the highway when the Robinson car skidded and ran into her. She was pinned to a snow bank and her right leg was broken. Mrs. McCuen was taken to the Tahoe Forest Hospital by the Truckee ambulance.

Mrs. McCuen was one of 16 patients treated at the local hospital for fractured limbs resulting from skiing accidents on New Year's Day.

SNOW REMOVAL IN COUNTY IS COSTLY

Nevada County spent $5,177.75 of its snow removal fund during December, Road Accountant W. N. McCormack told the board of supervisors Friday. The balance left in the fund on that date was $6,409.11.

Classes Resume—

Following a two weeks vacation, schools in the Tahoe-Truckee district resumed Monday.

Last Rites For Lucile Little In Truckee Friday

Prominent Woman Dies In Sleep; Region Is Shocked

Last rites for Mrs. Lucile Browning Little will be held at the Truckee Colonial Mortuary Friday afternoon at 2 o'clock, with cremation to follow in East Lawn at Sacramento. A Christian Science service will be read.

Mrs. Little, wife of Richard N. Little, prominent civic leader and owner of an insurance and real estate business here, died peacefully in her sleep Wednesdy morning. While she had not been in good health for some time, her sudden and untimely death came as a severe shock to her many close friends throughout the region.

A native of Woodland, Yolo County, Mrs. Little was born July 24, 1901. She was the daughter of the late Mr. and Mrs. William H. Browning, pioneer Yolo County residents. She graduated from the schools there and later attended San Jose State College.

She was married to Little October 7, 1922 at Woodland where he was employed at the Bank of Woodland. They left there in 1929 for Berkeley where her husband continued his banking career, later going to Sonoma for Bank of America as manager.

On January 9, 1943, just ten years ago tomorrow, they arrived in Truckee where Little was manager of the Bank of America for several years before giving up the post to enter private business.

The deceased was active in local club and social activities and devoted much of her time to the welfare of others. Since they entered private business, Mrs. Little was associated with her husband in the conduct of the busy office.

The prominent and well-loved couple have one daughter, Mrs. Roanne George, now residing in Oakland. They have two granddaughters, Barbara and Mary. Also surviving are two sisters, Mrs. Lurline B. Sorrick of Berkeley and Mrs. Rowena Ross of San Francisco, and two brothers, William and Robert Browning, both of San Francisco.

A community which was devoted to Mrs. Little is shocked and grieved, but will join in extending sincere sympathy to the surviving family.

SPORTMEN WILL MEET NEW HEAD OF GAME REGION

State Senator Harold T. Johnson of Roseville announces a dinner meeting on January 27 is being planned at the Gold Nugget Inn, Grass Valley, of all organized sportsmen's groups in the 7th District, comprising Placer, Sierra and Nevada Counties, for the purpose of discussing the fish and game program and any other matters of interest to sportsmen.

Robert D. Montgomery, regional manager of the department of fish and game, region II, will be a principal speaker. Lawrence Cloyd, management supervisor, has also been invited to attend as well as George Difani, consultant for the interim committee on fish and game.

VISITOR LOSES VALUABLE WATCH

Mrs. William Greaney and Michael Greaney returned to San Jose after being guests of Mr. and Mrs. James Bays during the holidays.

Mrs. Greaney had the misfortune to lose a wrist watch of sentimental value near Donner Lake Lodge at the close of her visit here.

MASS SCHEDULE BEING CHANGED

KINGS BEACH— Father P. J. O'Niell announces a change in the Mass schedule at Kings Beach. For the balance of the winter, Mass will be held at 10 a.m. Sundays instead of 10:30 at Our Lady of the Lake Church.

Sun Beams

by Walter M. Barrett

This week Larry and Alberta Nelson are saying goodbye to a community which has gained much by their stay here. It would be impossible to recount the lives saved and the suffering alleviated through the administering of the Nelsons. Without the aid of the fine new hospital, in the completion of which he took an active part, the young physician has done an outstanding job, defying the elements at their worst and surmounting difficult transportation methods to care for thousands of patients who placed a heavy strain on the doctor's time and health. For years he worked alone in this far-flung area and we feel that because of the coming of the Nelsons we have gained much as a community. The fact that three well trained, capable doctors have arrived in the area in recent years does not detract from the regret which we must feel with the departure of the Nelsons. We can only join in wishing them the best of everything in the years ahead.

* * * * *

We don't know what the National Safety Council has to say about driving cars piled high with snow which literally covers all but a small peep hole in the windshield, but we would like to suggest that this can easily be the cause of a serious accident. The five minutes saved by piling into the car without freeing the windows of snow and relieving the unbalancing weight on the top will not make amends for a collision with another vehicle or worse yet the running over of an unsuspecting child. Be sure you can see before you drive.

WINTER'S FIRST DAMAGE AS ROOF AT LAKE FALLS

First winter damage of 1953 was reported from Kings Beach yesterday where snow crushed a large building.

The horseshoe shaped structure was unoccupied at the time it collapsed yesterday morning. It had provided quarters for six stores in the center of King's Beach during its use and had been purchased last spring by H. E. Brooks, who planned to remodel the building for his own use and for rental units. Brooks owns the Tahoe Sportsman store at Kings Beach.

Both ends of the building were still standing yesterday but the center portion was demolished.

The structure was built several years ago by Walter Hempel, Tahoe real estate dealer and businessman, who was murdered in 1949. Brooks purchased the building from the Hempel estate.

STONE SPEAKER AT ROTARY CLUB

Nelson Stone, fire control assistant at the Forest Service office in Truckee, spoke before the Truckee Rotary Club Monday night on avalanches and their control, relative to skiing. Stone recently returned from an avalanche school at Alta, Utah.

SUPERVISORS TALK OF SHERIFF HELP

More help for the sheriff was a topic before the board of supervisors, meeting this week.

Henry G. Loehr, board chairman, suggested it would a good idea if constables could be converted into sheriff deputies so that the could assist in detection and pursuit of criminals.

He also said he favored having a full-time jail matron who could do stenographic work in the sheriff's office while not actively serving as matron. This, he thought, would relieve one deputy for outside work.

Daughter Betrothed—

Mr. and Mrs. L. R. (Bob) Jefford of Grass Valley have announced the engagement of their daughter, Sue LaNelle, to Donald Samsky, son of Mr. and Mrs. Justin Hill, also of Grass Valley.

Veteran Truckee Watchmaker Is Dead At Vallejo

Body of Bianchi is Found After Missing For Two Months

Friends here and throughout the region will be sorry to learn of the death of Albert Bianchi, 97, veteran itinerant watchmaker and for many years a summer resident of Truckee.

Bianchi's body was found on a small hill overlooking the Carquinez Bridge near Vallejo by two women.

Coroner Cyril McDonald of Solano County said Bianchi evidently had been dead for two months and that death was due to natural causes. A niece, Mrs. Ethel Bianchi, with whom the deceased frequently visited, said her uncle had been missing for about two months.

Born in 1855

Bianchi was a native of Switzerland born May 9, 1855. He began learning the watchmaking trade when only eight years of age and he paid his passage to the United States at the age of 16 by caring for the ship's clocks during the voyage.

During the gold rush in the Klondike he went to Alaska to engage in business.

He established a small watchmaking and jewelry business in San Francisco which he lost in the earthquake and fire of 1906.

Ardent Angler

Since the 1920's Bianchi operated a watch shop in Winters, Yolo County, during the winter months and maintained a similar business in Truckee during the summers. He was located while here in the office of the Sierra Sun. He was an ardent fisherman and despite his failing health in his later years continued to visit Truckee annually to enjoy the fishing.

Three years ago his eyesight began failing and he was forced to give up his work, but continued his annual local visits. During the past summer his stay was only for two days.

Bianchi had a niece and nephew residing in the bay area but otherwise had no close relatives. His wife, their son and daughter all died during the influenza epidemic in 1918.

BENEFITS SEEN IN COOPERATIVE STREET CLEARING

A good demonstration of the benefits from the cooperative program between the division of highways and the local merchants and other vehicle operators in clearing the street of snow was seen here last Monday.

Notified in advance of the arrival of the snow removal equipment, the committee from the chamber of commerce had the north side of the main street cleared of vehicles before the plows arrived, giving the crews an unobstructed field. Although a heavy coating of ice had formed, the equipment soon had the street free of snow and ice and difficulties were not encountered.

This spirit of cooperation, if continued, will mean a lot to the merchants of the town.

Observance of the "No Parking" signs has been almost 100 per cent and the committee expressed its appreciation to both the car owners and the state crews for the excellent results.

FATHER OF LOCAL WOMAN SUCCUMBS

Funeral services were held at Petaluma on Saturday for Charles Grigsby, 66, interment taking place in Ohio.

The deceased was the father of Mrs. Louis Curutchebery and made many friends here during his frequent visits with Mrs. Curutchebery and another daughter, Mrs. Alice Modl, now living at Petaluma. His illness extended over two years, most of the time spent in a hospital.

His wife, Lula, five other children and eight grandchildren survive.

Rain Diminishes Snowpack Adds To Precipitation

Although precipitation in this area is only little more than half what it was on this date last year, current and forecast storms are pushing hard to equal the record breaking winter of 1951-52.

This morning the U.S. Forest Service here reported 48 inches of snow on the ground compared to 55 inches on January 7 last year.

During the past week the precipitation has totaled 2.10 inches up until this morning, bringing the season's total to 15.07 inches to date, compared to 25 inches last year on this date and a normal of 14.14 for the end of January.

Currently this area is .93 of an inch over the January 31 normal, with nearly a full month to go.

The storms during the past two days have not been as severe as last year's blizzards, but have succeeded in causing minor traffic delays over Donner Summit and otherwise being a general nuisance. A truck was stalled by a slide near Big Shot on Donner Grade yesterday morning and it required four hours to free the vehicle, clear the road and get traffic rolling.

Nearly a half an inch of rain fell here last night, diminishing the snow pack somewhat and adding weight to already heavy laden roofs.

Barometers today were showing a small rise but the forecast is for continued unsettled weather through Sunday.

POST OFFICE HAS GOOD GAIN HERE IN PAST YEAR

An increase of more than $2,000 in the gross receipts at the Truckee post office for 1952 as compared with 1951 has been reported by Postmaster E. C. Bavier.

Postal receipts are considered one of the best business barometers of a community and the consistent, healthy gains shown each year here speaks well for the development of the area.

The stamp sales, box rentals and non-metered matter totaled $19,209.33 last year as compared to $17,098.21 for 1951, Mrs. Bavier reported.

COURT INCOME DOUBLED HERE IN FIVE YEARS

The collection of fees and fines in the Truckee Justice Court has almost doubled in volume in five years, according to a summary prepared by Judge F. W. Wilson of the local judicial district court.

Total collections for 1952 were $27,035.75 with an approximated case load of 1386 cases, with an average per collection of $19.51.

Total receipts for earlier years and the case loads, according to Judge Wilson's summary, were as follows:

1948: $13,593 (833); 1949: $14,-896.30 (825); 1950: $12,966.75 (900); 1951: $20,781.'5 (950).

Average per collection for each year was 1948, $16.32; 1949, $18.05; 1950, $14.44; 1951, $21.88.

CHESTER BURNS PARENTS OF SON

A six-pound, one-ounce son, Scott, was born Wednesday, December 31, to Mr. and Mrs. Chester Burns of Truckee, thus holding the distinction of being the last child born in the Tahoe Forest Hospital in 1952 and missing by only a few hours of being the first 1953 baby.

SPECIAL SERVICE AT LOCAL CHURCH

The "Covenent Service" of John Wesley will be offered with the morning worship services of the Truckee Community Methodist Church at 11 o'clock Sunday.

Church School classes for all ages will be held beginning at 9:45 a.m., with E. H. Risden as superintendent.

"You are cordially invited to attend all the services," says Rev. A. A. Carmitchel, pastor.

Are you a SUNscriber?

Loehr Again To Head Board As New Men Seated

Tobiassen and Rowe Are Honored at Meet Of Board

H. G. Loehr, supervisor from the Fifth Nevada County District, which includes Truckee, Floriston, Donner Summit and You Bet, has been reelected chairman of the board of supervisors for 1953.

Loehr has held the important post on the board for the past two years. It marked the first time, for many years at least, that a supervisor from the eastern section of the county has held the post of chairman.

Outgoing Supervisors C. J. Tobiassen and Fank J. Rowe were honored by the other members of the board and the county court house officials at an informal meeting of the board this week, when they were replaced by Curtis Clark and John Frank.

Loehr adjourned morning session and asked District Attorney Vernon Stoll to officiate as master of ceremonies in the presentation of gifts of luggage to the two outgoing officials.

ILLEGAL PARKING FINES TO RAISE, JUDGE DECLARES

Fines for illegal parking are going up.

Judge F. W. Wilson of the Truckee Judicial Distict Court this week announced that because of the terrific increase in the number of violators cited to his court, it has been found that more rigid fines must be imposed if the number is to be cut down.

In the future, barring extenuating circumstances, the penalty will be $10 instead of the customary $5, Judge Wilson declared.

The increase in traffic over Highway 40 and the subsequent tieups caused by not observing parking rules is becoming a difficult problem, Judge Wilson observed. The chief concern is to prevent congestion and make the highways safe for drivers, he added.

BOSS NIGHT IS SCHEDULED FOR 20-30 ON JAN. 22

The Truckee 20-30 Club met at Donner Lake Lodge last night with President Bill Frey in charge.

A "bosses' night" will be held at Donner Lake Lodge on Thursday night, January 22, at which club members and their bosses will be present. Bob Bowers of Reno, one of the organizers of the local 20-30, will be master of ceremonies and will bring a program of entertainment with him.

There will be no 20-30 meeting here next week as members will travel to Reno on Thursday for a joint meeting with Reno 20-30. Members will meet at Cliff Ellis' service station at 6:30 p.m. for the trip to Reno.

Last night's meeting ended with group singing, accompanied by Hugh Smith at the piano.

WILANA CURRAN FETED AT PARTY

The sixth birthdate of Wilana Curran was celebrated Monday, January 5, with a party at the home of her parents, Mr. and Mrs. W. F. Curran. Pinks and reds predominated the party decor, with the youngsters playing records and games prior to the serving of refreshments. Sharing the occasion were Jean Wakefield, Valerie Crew, Barbara Steele, Bonnie Fair, Kathleen and Sherilyn Curran.

PHYLLIS BARRETT MARKS BIRTHDATE

Phyllis Barrett, daughter of Mr. and Mrs. Doug Barrett, observed her fourth birthdate on Tuesday, January 6, with a party at her home here. A green cake topped with red candles was enjoyed by Mrs. Walter Barrett, Mrs. Martin Sturcke and sons, Gary and John, Marcia Leamon, Mrs. Wm. Englehart Jr., Kathryn, Sheila and Patricia Barrett.

HUGH SMITH WILL HEAD PTA PROGRAM

Hugh Smith will direct a skit entitled "The Family" for the members of the Parents and Teachers Association program at the meeting to be held January 12 in the Truckee elmentary school. The presentation will convey good family relationships. Teachers will be hostesses during the social hour. Mrs. Rex Reid will preside at the business session.

PROCEEDINGS OF THE BOARD OF SUPERVISORS FOR JANUARY, 1953

January 2, 1953

The Board of Supervisors of the County of Nevada, State of California, met in regular monthly session on this date at 10:15 o'clock A.M. and there were present and answered to their names the following:

Supervisors: Carl J. Tobiassen, Frank J. Rowe, J. C. Coughlan, Guy N. Robinson, Henry G. Loehr.

Supervisors Absent: None.

Supervisor-Elect Curtis R. Clark was also present.

The minutes of the meeting of December 16, 1952, were read by the Clerk, and no errors or omissions being noted, were duly approved and ordered adopted as read.

BUDGET TRANSFERS

On motion duly made, seconded and unanimously carried, the following budget transfers were authorized:

From General Election's budget the sum of $540.00 to Clerk & Auditor Maintenance and Operation; from Clerk & Auditor Maintenance and Operation budget the sum of $35.53 to Clerk & Auditor Capital Outlay budget; from Unbudgeted Reserve the sum of $628.81 to General Refunds.

CORRESPONDENCE

A letter was read to the Board from Mrs. Edna D. Sampson of Grass Valley protesting the amount of her taxes on her South Auburn Street property. The Clerk was directed to answer Mrs. Sampson's letter and advise her to take this matter up with Assessor Tamblyn in March for adjustment, and if this proves unsatisfactory to appear before this board in July and present her case.

A letter was received from the City Manager of Chico, California, requesting assignment of $199.47 from Chapter 20 money, which it is asserted this jurisdiction had yet unexpended. No action was taken at this meeting and the letter was ordered filed.

A request for financial assistance from Bruce McKnight, C.P.A. of Stockton, California, asking this County for $50.00 to assist in the fight against the request of the Pacific Telephone and Telegraph Company for excessive rate increases, was put over until Monday afternoon, January 5, 1953 for action.

A letter was read from the State of California, Department of Public Works, notifying this Board that in accordance with the Secondary Highway Act of 1951, Chapter 1321, Nevada County has been apportioned $32,052.00 of F. A.S. funds for the fiscal year ending June 30, 1954. Attention was particularly called to the sixty-day period during which the Board should take official action of intention toward the use of the funds.

The Board was notified by letter that a meeting of the Board of Directors of the County Supervisors Association of California would be held in Sacramento on January 9, 1953, at 10:00 o'clock A.M. The matter of designating a representative from this Board was continued until Monday afternoon, January 5, 1953.

A letter was received from Curnow - Halls Insurance Company that on December 6, 1952, at about 11:00 A.M. a Petroleum Tank Line Company truck accidentally tore out one of the pillars to the entrance of the County Hospital, while delivering a load of fuel oil to the hospital.

It was decided that before a claim for damages is presented to Petroleum Tank Lines, that Mr. Veale have an appraisal of the damage done so that the District Attorney will have an accurate demand to present.

A request was made for representatives of this Board to attend a meeting of Highway 20 Association at Marysville on January 11, 1953. This matter was put over until Monday afternoon, January 5, 1953.

An order was received from the Superior Judge requesting that this Board list 350 men and women to serve as trial jurors for the year 1953.

A claim for damages filed with the Clerk on December 5, 1952, was presented to the Board. The claim for $10,885.00 was for alleged personal injuries to one David Allen Moore, a minor, and medical and hospitalization expenses sustained by said minor, resulting from a fall from a bicycle on the French Corral Road, approximately 200 yards east of the Birchville School, on September 8, 1952, at or about 3:35 P.M. On motion of Supervisor Rowe, seconded by Supervisor Robinson, and unanimously carried, it is ordered that the claim be rejected. The Clerk was instructed to so notify Attorney C. Ray Robinson and Curnow-Halls Insurance Company.

The monthly bills were presented by the Auditor. The same were carefully inspected by members of the Board, and the following were duly authorized for payment:

GENERAL FUND, Warrants Nos. 9144 to 10,653, $114,762.90. VETERAN'S BUILDING FUND, Warrants Nos. 71 to 88, $1,137.50. SPECIAL ROAD IMP. FUND, Warrants Nos. 575 to 692, $28,449-.99.

On motion duly made, seconded and carried, it is ordered that the minutes of the proceedings of this Board for the month of January be published in the SIERRA SUN.

On motion of Supervisor Rowe, seconded by Supervisor Robinson, and unanimously carried, the County Clerk is authorized to go to San Francisco on January 8, 1953, to consult with the Assistant Secretary of the Judicial Council relative to business of the Superior Court, and that the expense of said trip shall become a proper county charge.

On motion made by Supervisor Tobiassen, seconded by Supervisor Robinson, and unanimously carried, it is ordered that the sum of $7,658.84 be added to the budget under Code No. 561-M.

The Welfare Director appeared before the Board and rendered his report for the month of December. The same was carefully examined and on motion of Supervisor Rowe, seconded by Supervisor Robinson, the same was approved and ordered filed with the Clerk.

On recommendation of the Welfare Director, and on motion of Supervisor Rowe, seconded by Supervisor Robinson, and unanimously carried, the Board voted a finding that one old age pensioner, one blind recipient and one child aid recipient had fraudulently obtained welfare aid, and instructed the District Attorney to take immediate legal steps to recover the money they had received.

The Welfare Director was authorized to subscribe to a national welfare magazine known as "Public Welfare and Federal Security Bulletin," out of County funds. The Welfare Director notified the Board that employment of a Social Work Supervisor will be requested when the 1953-54 budget is submitted in July.

The Road Commissioner appeared before the Board and stated that he had received official notice from the State Engineer that the proposed contract between da-Rosa-Ribal, Inc. and the County of Nevada for $7,544.50 for the erection of the Floriston Bridge was approved. On motion of Supervisor Rowe, seconded by Supervisor Robinson, and unanimously carried, the Chairman and the Road Commissioner were duly authorized and directed to execute the contract.

Nothing further to come before this meeting, adjournment was taken until 10:00 o'clock A.M. on January 5, 1953.

R. E. DEEBLE
County Clerk and Ex-Officio Clerk of the Board of Supervisors.

HI FACULTY, STAFF RETURN FROM TRIPS ON HOLIDAYS

Students and facutly returned Monday to the Tahoe-Truckee High School and from all reports a pleasant holiday was enjoyed by all. Several members of the faculty managed to travel a great deal in the two weeks' recess.

Marilyn Daily flew to Cocoa, Florida, to be with her family for Christmas and New Year. Her report of eating Christmas dinner out of doors and swimming and lying around on the beach was quite a change from Truckee weather.

Mr. and Mrs. Lee Madden drove across the country to visit their family in New Jersey. They had an uneventful and enjoyable trip.

The librarian, Jeannette Lawrence, flew home to Ottawa, Kansas, to visit her parents. Mrs. Sam Costa Jr., assistant to the librarian, spent the holidays in the bay area.

Ron Eberhart, business machines teacher, visited relatives in San Francisco. Phyllis Zeigenmeyer returned to her family in Sutter for the holiday.

Mr. and Mrs. George Bergen and sons, Larry and William, spent their holiday in sunny southern California in the neighborhood of the Rose Bowl.

Miss Thelma Finger, dean of girls, reports she just stayed home and relaxed in preparation for the strenuous second semester.

George Boyle, industrial arts teacher, and his family spent the Christmas vacation in Oakland and vicinity. The Butterfields—Pat and Gordon—traveled to Sun Valley, Idaho; he for a reunion with World War II Army buddies.

Mr. and Mrs. Robert Briggs spent part of their vacation in San Francisco and vicinity visiting relatives and friends.

Mrs. Jack Dunne, eighth grade teacher, was not as lucky as the rest of the faculty. She spent her entire two weeks at home fighting off lobar pneumonia. She is on the mend but must take things easy for a while.

Betty Lou Raker returned to her home in Chico to visit her family. While there, she had a reunion with her college friends who arrived from all over the United States, Greece and Italy.

The Norman Dewhursts spent the holidays at home and the Everett O'Rourkes spent most of their time in Truckee, with a short visit at Christmas with their son and family in Auburn.

The Jim Brehlers went home to Sanger and attended the East-West football game in San Francisco. Mrs. Emily Bergmans, the school chef, and her children, Elbert and Nancy, spent the Christmas holidays visiting her mother but returned early to get ready for the opening of school.

The custodians, of course, were on the job during the school vacation, getting things back in shape and the plant really shows their hard work.

Mr. and Mrs. Jake Stuart went to Los Angeles over the New Year holiday to watch the Rose Parade.

Harry Eaton and the other bus drivers also worked hard getting snow removed from the school grounds and taking care of work on the vehicles.

The Jack McGlades were also on the job most of the vacation but spent a few days in San Francisco.

She Walked a Mile

Grace Stockdale, 9, stepped off a mile of baton twirling during a recent parade in her home town of Ogden City, Utah. This was after four leg operations performed with March of Dimes financial assistance. Her father, William Stockdale, said the March of Dimes provides an "opportunity for handicapped people to live and behave as normal individuals." Dimes drive ends Jan. 31

Jamaica

Jamaica has an area of 4404 square miles and is owned by Great Britain.

TAHOE WATER UNIT BACKS PROJECT ON CONTROL OF RIVER

The Lake Tahoe Interstate Water Conference Committee has approved an army corps of engineers plan for an $820,000 flood control project on the Truckee River.

The committee, meeting with the state reclamation board in Sacramento Tuesday, adopted a resolution in favor of the corps' intention to improve the channel of the river at its start at Lake Tahoe, at Truckee and in the Truckee Meadows near Sparks and Reno, in Nevada.

R. H. DeWante, assistant chief of the planning branch of the Sacramento district corps of engineers explained the project to the committee and emphasized:

"These items of channel improvements will give immediate benefits and, at the same time, will fit in with any comprehensive plan for dams, reservoirs or other projects in the future."

The project includes the widening of the channel to 50 feet and deepening it four feet for a stretch of 3,000 feet at the head of the river.

DeWante explained the project will give greater control of the discharge of water from Lake Tahoe at the control structure, which now handles 1,600 cubic feet of water per second. He said the channel improvements will provide for a discharge of 2,500 cubic feet per second when needed.

The committee recommended the plan be presented to Congress as soon as possible to obtain an appropriation for the project.

Committee members present included Colonel A. M. Barton, chairman; George S. Kehlet of Meeks Bay; C. R. Young, Bijou; Will M. Bliss, Glenbrook; H. O. Comstock, Brockway.

Whales Will Replace S. F. Sea Lions

SAN FRANCISCO— The difficulty of keeping live sea lions in the pool in front of Steinhart Aquarium in Golden Gate Park—because of their propensity for swallowing coins tossed to them by visitors—has convinced the California Academy of Sciences officials that the time for a change has come.

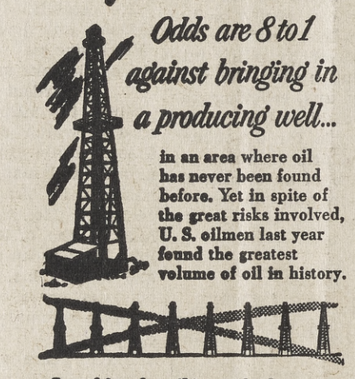
To replace the sea lions will be two 15-foot whales—not the live variety, however. They are the black terrazzo statues which formed the fountain in the court of the San Francisco Building on Treasure Island during he 1939-40 Golden Gate International Exposition.

Final plans for replasing the old pool with the whale fountain are under way and it is expested installation will be completed in about three monhs.

Pine Flat Dam

Pine Flat Dam, 440 feet high, now under construction on the Kings River, will rank among the eight highest dams in the world upon completion.

Did you know that:



Odds are 8 to 1 against bringing in a producing well...

in an area where oil has never been found before. Yet in spite of the great risks involved, U. S. oilmen last year found the greatest volume of oil in history.

Searching for oil is a risky business. And it is only one of the many things we oilmen must do to keep your family car rolling and to meet other record demands for fuels and lubricants. We're proud to be part of the competitive, progressive oil industry that brings better living to this community.

Tahoe Topics

by ETHEL J. VERNON

Skiing is good — very good — in our high Sierra region. In fact, it's either TOO good or else a lot of visiting skiers are not good enough at it. According to Dr. Jose Nessim, of Tahoe Forest Hospital's staff, just 39 skiers with broken leg or ankle bones were brought there for first aid treatment over the past week end. The doctor said that about three-fourths of that number sustained their broken bones in the Donner Summit areas, while the remainder was almost evenly divided between Squaw Valley and Granlibakken. None of the injuries, though extremely painful, were considered serious beyond the fact that 39 skiers will probably not be able to don skis again this winter.

Winter sports accommodations at Squaw Valley were crowded to capacity over the weekend. Tahoe City visitors to Squaw Lodge on Saturday afternoon found all parking areas filled and cars parked bumper to bumper on both sides of the valley road for half the distance between the lodge and the highway. Ski sports directors put on the usual weekend "Arrow Standard" races on Saturday and Sunday with record crowds of spectators and the cloudy weather, without snowfall, kept the snow pack in prime condition.

Wayne Poulsen, veteran ski sports ace in this region, whose home occupies a choice spot near the foot of Squaw Mountain's eastern slope, has installed a ski tow of his own this winter, just opposite his home across the Squaw Valley road. His ski run, which is said to be in excellent condition, he has named "Papoose Hill" and the peak above it "Papoose Peak." Chris Poulsen, eight year old son of the family, is recovering in good shape from a broken leg he sustained recently on the ski slopes.

The three young men who were injured last week in the gas explosion at the Lemoine Beckman summer home in Timberland left the Tahoe Forest Hospital on Sunday. The son of the home owner, Lemoine Beckman Jr., motored with his parents to their winter home in Lodi. Young Beckman's injuries were the least of the three, consisting mainly of a badly sprained foot. The other two hospitalized youths, Alison Green and Robert Hutchins, were transferred to hospitals in their home town of San Francisco. Young Hutchins, who is still in a cast with a broken back, will probably be hospitalized for several weeks, according to his attending physician. Green, whose head injuries caused a lengthy period of brain concussion and who had also a badly broken leg was thought to be in the most serious condition, although he had regained his strength sufficiently to be transferred by ambulance to a bay region hospital. It was expected he would have to remain there for some time. Harry Mays, the fourth member of the party up for skiing New Year's Eve, escaped without any apparent injury. The Beckman summer home, in the snow drifted woods of Timberland, is a pathetic ruin since the blast and will probably have to be almost completely rebuilt. The well built two story cottage had the floors of its three ground-floor rooms raised at their centers more than two feet and the hardwood flooring broken in countless places. Three walls of the lower story were shattered, with a good part of their timbers blown into the woods about the house, which left part of the upper story bent and dangling over the wreckage. Scarcely a piece of furniture was left unbroken and clothing and bedding were strewn everywhere. One torn couat was observed hanging on the jagged edge of the dangling upper story timbers.

The Tahoe Pen and Brush Club is holding its fourth meeting of the winter season on Wednesday evening this week at the home of the president, Mrs. C. W. Vernon, in Tahoe City. Mrs. Bertel Anderson of Pineland will act as hostess on this occasion and about eight or ten members are expected to attend, several of the club's membership being out on vacation at this time. The subject for the bi-weekly contest paper this time is "New Year Resolves I've Made and How I'll Go About Keeping Them." Award for the winner of the contest will be given by the president.

According to regular measurements kept by Weather Observer Arthur Frodenberg, Lake Tahoe's level is gradually rising this winter. At noon on Monday the lake stood at 6227.67 feet above sea level which is two-hundredths of a foot higher than it measured a week ago. Frodenberg said he is keeping 11 gates open at the dam for the time being, as directed by the Truckee Carson Irrigation District, and that 377 cubic second feet of water are flowing from the lake into the Truckee River. The snow level on the ground here at that time measured 38 inches, although considerable more will have fallen by the time this is in print. Temperatures range from 21 to 35 degrees above zero at night, as a rule, and between 48 and 58 above during the day. On Sunday and Monday on of Tahoe's unusual fogs hung heavily over the entire region, shutting out the sun, and thawing snow drifts sent trickles of water into the plowed highways everywhere. During the year end-new year week, slightly more than 13½ inches of new snow fell here with just over 1.33 inches precipitation. Daily high and low temperatures were Dec. 29th: 39, 17; 30th: 30, 25; 31st: 31, 13; Jan. 1st: 39, 18; 2nd: 37, 24; 3rd: 35, 25; 4th: 33, 21; 5th: low, 25.

Word from Tahoeites on vacations to friends in Tahoe City this week included the following:

From Joe and Marie Henry, touring the eastern and southern states since November, comes word of an enjoyable stop-over in Maryland. Here they met by accident a couple of their Tahoe neighbors, Mr. and Mrs. Floyd Carnell, also on vacation, and for several days played golf with them by day and attended their favorite operas together in the evenings. Communications to friends here from Bill and Shirley Conger, in Bakersfield for the mid-winter, tells of Bill recuperating nicely from a minor operation, and how they are missing their Tahoe City home. A letter from Jeannette Mitchell, lately of the Pineland vicinity, tells of sunny days and good times at Laguna Beach where her husband is working this winter as a carpenter. Jeanette says she is getting homesick for Tahoe and her friends here and says she will be more than ready to come back when work at Pineland starts starts again in the spring. The N. R. Mayfields of Tahoe, who recently rented an apartment for the winter in Sacramento, are at home here again for a week, while Mayfield attends to the closing of his home and business here for the winter.

Miss Dodie Post, one of the ski sports directors of Squaw Valley, has recently been appointed to choose from this area the girl entrants who will take part in the F.I.S. ski races to be held some time this winter. Miss Post has herself taken part in various national ski sports events during the past few years and has been a ski instructor for some time.

Bill Jenkinson of Tahoe City, who has been prominent in ski sports in the past, has taken a very important post during the past week. He has been engaged as a skiing instructor for the Tahoe-Truckee Unified School District.

In the North Tahoe summer home colony during the past week, homes opened for the convenience of ski sports parties include the following:

The Stack home on the mountain above Brockway was opened for Robert Stack, noted Hollywood actor, who arrived there on the weekend accompanied by his brother Jim and a party of friends from the southern city. The Wallace Breuner home, also overlooking Brockway, was opened for members of the family who are enjoying a few days of skiing, mostly on the slopes of White Hills. Mr. and Mrs. Tom Dwyer also opened their lakeshore home where the party and a party of friends are enjoying the snow sports for a few days.

Mr. and Mrs. Gordon Butterfield, teachers in local schools who reside at Tahoe, were on vacation during the past week and took advantage of the mid-winter period for a trip to Sun Valley. Both being skiers, they naturally enjoyed the spacious slopes there. Butterfield is athletic intructor in the unified district high school while his wife teaches in the Tahoe City elementary school.

Mr. and Mrs. Jack Starratt of Tahoe City entertained in their home over the weekend Mr. and Mrs. Richard Lee of Lincoln. The Lees are the parents of Mrs. Starratt.

Thirty-eight students from International House at the Berkeley campus of University of California were guests at the Homewood Hotel last Friday and Saturday. While at the lake the group enjoyed a motor trip to Carson City and a visit to the Stewart Indian School near there. The students took part in the skiing and snow frolics on the Homewood ski slopes and on their way back down to Truckee toward home they stopped in at Squaw Valley and enjoyed a ride on the Sky Chair lift.

At the Leon Dockham home, near the Tahoe Fish Hatchery near here, a real family reunion was enjoyed over the holiday season and including the past weekend. The younger son, Bob, vaca-

STEER OF THE YEAR

CHICAGO — A roan Shorthorn won the world's championship in the International Live Stock Exposition here. This popular grand champion was Ohio's Leader 2nd, shown by Ohio State University, Columbus. He was smooth, mellow and every inch a champion, according to Judge A. D. Weber, of Manhattan, Kans. He slaughtered at a dressing percentage of more than 68 per cent, showing a higher ratio of slaughter weight to live weight than any other International grand champion on record. He sold for $4.55 per pound to bring his total earnings with prizes to $6,350.

CRYSTAL CREAMERY

KITCHEN TIPS

FROM THE CRYSTAL MAID

Could you be one of the many women who, since the holiday feasting, pass a full length mirror with averted eyes or a slight shudder, feeling sure the cleaner shrank that dress? Then pick up your pen and send for the SLIM 28-day diet booklet — and learn how easy it is to lose 10 pounds in less than a month! Enclose 10c for mailing costs, and send your request to the Crystal Creamery 'address below). Do it today.

VEGETABLES WITH VITAMINS

Don't fail to serve the leafy, green vegetables so rich in vitamins these winter months. Good choice now is Brussels sprouts. Good way to cook them is:

Brussels Sprouts Saute'

Cook 1 qt. firm Brussels sprouts together with a medium-sized onion, chopped, 1 bay leaf, 2 whole cloves in salted boiling water to cover. (Cook in open kettle until tender.) Drain well. Heat ¼ cup Crystal Butter, add the drained sprouts and fry over gentle heat, tossing the pan frequently, until sprouts are delicately brown. (Don't stir, lest sprouts break.) Serve very hot. Serves 4.

* * *

Frankfurters Supreme

Frankfurters become something more than a penny-pincher dish for the family when you serve them this way: Split the franks, brown in Crystal Butter, top generously with applesauce to which you've added a touch of horseradish. Bake in the oven at 350° till hot.

* * *

To keep slender and trim drink Crystal SLIM, the Valley's favorite enriched low calorie milk.

Sour Cream Potato Chowder

Gently fry ½ lb. chopped fresh mushrooms and ½ cup chopped onion in 4 tbs. Crystal Butter. When tender add 1 cup boiling water and 1 cup raw potato cubes. Cook until potatoes are tender, season with salt, pepper, dash each: nutmeg, mace, cloves, thyme leaves. Stir in 2 cups scalded Crystal Milk and bring to a boil. Remove from fire and gradually add 2 egg yolks, well beaten with ¼ cup sherry and 2 cups soured Crystal Cream. Bring to a boil and serve at once with bread cubes fried in Crystal Butter.

* * *

One, two three, four five, six . . . SIX shining Gold Medals were given to Crystal Creamery's "REALLY farm fresh" dairy foods at the State Fair, because they are so extra good!

* * *

Make dinner a party tonight — treat your family to delicious, nutty, Crystal Pecan Crunch Ice Cream. It's the flavor-of-the month.

MEEKS TO BLISS ROAD TO BE CLEARED BY STATE MEN, PLOWS

MEEKS BAY— State division of highways will plow additional mileage of Highway 89 between Meeks Bay and Bliss State Park at Lake Tahoe, conforming to a request made by El Dorado County authorities. However, the state agency emphasized that the section has a low priority if severe storm conditions necessitate use of snow removal equipment elsewhere.

A. M. Nash, district engineer, notified H. E. Abell, county road commissioner, that the snow removal will be kept up, even though families at Bliss State Park have been utilizing motor boats for winter access heretofore in severe weather.

Highway 89 skirts the California side of Lake Tahoe from Tahoe Valley on the south to Tahoe City at the north end of the lake.

State plows keep the road open from the south only as far as Tallac fish hatchery. Plows operating from Tahoe City end normally plow to Meeks Bay. Nash's order extends the latter service approximately five miles, over some of the more mountainous portions of the route.

PLACER COUNTY SETS RATE SCHEDULE ON SNOW MOVING GEAR

AUBURN— The Placer County board of supervisors recently established rental rates for the use by private parties of the county's snow removal equipment. Rates determined, effective at once, are:

Rotary snow plow, manned, $14 per hour; push plow, $7 per hour manned; motor grader, manned, $5 per hour.

The board acted following a discussion of the problems of snow removal from private roads with John Melgord, county road commissioner. Melgord told the board that the county will have to buy new snow removal equipment next year.

Snyder Girls Hostesses At Holiday Party

TAHOE CITY— On Sunday, December 21, the D. L. Snyders had a Christmas party in their home in Lake Forest for the children. The hostesses were Sandra and Stephanie Snyder.

The children came from seven 'til ten and they were entertained with Christmas and comic movies and they sang Christmas carols.

The table was attractively decorated with a Christmas tree and a Santa Claus face that was lighted. The cookies were decorated in the Christmas theme and served to the children with ice cream cones.

The young people invited are Donald Bury, Gregory Moore, John Wegley, Christine Litke, Elizabeth Weller, Raymond Hill, James Randall, Michael Rickett, Janice Giannini, Karen Henry, Erica McLane, Linda Sprague, Sandy Fellows, Julianne Bechdolt, Kathy Conners, Basil Kehoe.

Tamarack Ski Club Names Members of Team

SACRAMENTO— With the ski racing season about to start in the high Sierra, Tamarack Ski Club has selected a team of six men and four women to carry the club's colors this season.

Gus Kelley, competitions chairman, announced Allen Shearer, Bill Kennedy, Fred Degen, Lou Diamond and Les Snyder as members of the men's squad, along with Kelly. Mary Todrank, Marie McDonald, Rose Marie Cataldi and Dolores Snyder will represent the club in women's competition.

A large party of Tamarack members held a combing New Year party and ski holiday at the club's lodge near Donner Lake last weekend.

Upon their return, they took up plans for the club's annual winter ski carnival to be held January 24 at Governor's Hall in Sacramento.

'52 DEER "HARVEST" 21 PER CENT OFF FROM YEAR PRIOR

SAN FRANCISCO— California deer hunters bagged a total of 50,667 bucks in 1952 — the third highest record in state history — the department of fish and game reveals.

The final annual figure is based on the return of validated deer tags by successful hunters. It falls about 21 per cent short of California's all-time record kill of 64,619 bucks, scored in 1951.

Mendocino County, with a reported harvest of 4,252 deer, led the tally by counties for the first time in three years. Hunters in Siskiyou County bagged 2,187 bucks and Lake County reported a take of 2,056 animals.

Bow and arrow hunters, afield during special 10-day hunting seasons preceding the regular firearms seasons, racked up a kill of 37 bucks in 19 counties. Los Angeles County accounted for eight of the total archery take.

In announcing the annual harvest, the department's game conservation branch asserted that California hunters could take an even greater proportion of the state's million-plus deer. A proposal to allow two days of hunting deer of either sex in selected areas is now before the fish and game commission.

"Where other western states aim to harvest 20 to 30 per cent of their deer each year," the report states, "Californians have been bagging only 5 to 7 per cent annually. This results in a waste of surplus animals."

The annual California deer kill since the end of World War II:

1946, 47,419; 1947, 47,178; 1948, 47,789; 1949, 52,082; 1950, 47,128; 1951, 64,619; 1952, 50,667.

All these figures indicate the legal, reported kill of busks only and do not include recent special antlerless hunting season results.

In the counties along the California-Nevada state line, the 1952 bag by counties was:

Alpine, 1277; El Dorado, 937; Lassen, 1962; Modoc, 1794; Mono, 1442; Nevada, 972; Placer, 531; Plumas, 1671; San Bernardino, 628; Inyo, 308; Sierra, 795.

WIDER "40" AT LINE RUNS INTO SNAG, ALL BIDS TOO HIGH

CARSON CITY— Bids for rebuilding Highway 40 into a divided four-lane route for a distance of 2½ miles east from the California-Nevada state line were all found to be too high when opened here last week.

opened the bids New Year's Eve

Nevada's state highway board in the capital. According to Huston Mills, state highway engineer, all tenders exceeded the amount of money programmed for the project.

The lowest bid was one for $771,000 submitted by the Isbell Construction Company of Reno. The highest bid was for $868,000 submitted by a California firm.

Mills says the matter will now be turned over to officials of the U. S. bureau of public roads with a recommendation that additional funds be provided so the bid can be awarded. Both the state highway department and the Nevada district office of the federal bureau have made this recommendation.

Redwood Burls

On old redwood trees, burls may measure six feet or more in diameter and have a volume of over 1,000 board feet.

PT&T Founded

The Pacific Telephone and Telegraph Company was founded at San Francisco in February of 1878.

Shasta Dam

Shasta Dam on the Sacramento River is 602 feet high and has a storage capacity of 4,500,000 acre feet.

LITTLE CHANGE SEEN IN STORAGE ON TRUCKEE RIVER

RENO— Water storage along the Truckee River changed very little during December.

The only reservoir that showed a marked change during the last month of 1952 was Donner Lake, which has been drained of nearly all of its storage water.

Lake Tahoe still stood at 6227.7 feet above sea level, approximately the same elevation reported on December 9. Although no survey has been made, it is believed that Independence Lake is almost empty.

Boca Reservoir is slightly more than a quarter full, holding 11,500 acre feet of its 40,900-acre-foot capacity. The reading at the reservoir is approximately the same as it was on December 9.

About 55 second feet of water are being discharged from Boca while approximately 380 second feet are being discharged from Lake Tahoe. Both figures are nearly the same as they were a month ago.

At its present level Lake Tahoe, which impounds about 480,000 acre feet of water, is nearly 1.40 feet below the maximum allowable level of 6229.1 feet above sea level.

Donner Lake has a capacity of 9,500 acre feet and Independence Lake has a maximum allowable level of 17,300 acre feet. Most of the reservoirs have been pulled down in anticipation of spring runoffs and no radical changes are expected before the Sierra snows begin to melt.

Start of snow surveys to forecast the expected volume of runoff on the Truckee watershed is scheduled for next week.

Clyde Houston, hydrologist for the Nevada Co-operative Snow Survey committee, said spot checks would be taken next week along the Truckee River. More will be taken on February 1 and March 1 and the entire course will be surveyed April 1.

MAINLINE FREEWAY STATE PROGRAM UNVEILED BY GOV.

SACRAMENTO —(C. N. S.)— A plan for constructing a mainline freeway system throughout the length and breadth of California within the next ten years has been unfolded by Governor Earl Warren for the 1953 session of the legislature to consider and, if adopted, to finance.

Warren stated the problem is to get the money to pay for correction of the state's highway deficiencies and that it is up to the legislature to determine the answer.

The governor believes every highway user should pay a part of the cost of any accelerated program authorized by the legislature but said:

"I don't want to be dogmatic about who should pay what. I think unquestionably there must be an increase in the gas tax. What the percentage should be I am not prepared to say."

He added he is not satisfied a bond issue is a solution to the problem.

Financing of the plan, a plan he did not describe in detail, would cost the driver of each motor vehicle now registered about 20 cents per week over and above present fees and taxes, he estimated.

Warren's proposal is based on studies made by the state highway department in 1950 and the National Automotive Safety Foundation in 1952, the latter estimating correction of California's 12,067 miles of deficient highways would cost $3,416,000,000, of which $786,000,000 would be spent for acquiring rights of way and the rest for construction.

"My belief after consulting the department of highways is that the legislature should give careful consideration to a mainline freeway system which would serve all parts of the state to the greatest advantage," Warren declared.

He said he believes such an arterial system as envisioned by the highway department will pass through counties and heavily populated centers which represent 97 per cent of the state's population and that it could be completed in ten years. Thereafter, he added, the department should always be ten years ahead in its planning in order that it may advise the legislature at any time concerning roads.

Warren indicated any new moneys raised by the legislature should go primarily into the mainline system, and that current revenues should continue to flow into both mainline and secondary highway development.

According to his plan, secondary road deficiencies would be remedied in from 10 to 15 years.

After describing the proposed arterial system as the state's basic need in highways, Warren stated assets of such a road network "can not be measured in dollars alone," and poined out it would be "an incalculable benefit to the economy."

To regard new money spent on highways as a net expenditure with no offsets is not fact, he said, citing as an example that driving on a freeway saves a motorist up to one and a half cents per gallon as compared with fuel consumption in stop and go driving on ordinary city streets.

He noted only three per cent of the $4,000,000,000 spent yearly for highway transportation in the state goes into road construction.

Warren said the highway department is building highways as fast as it can with the funds available and pointed out it could handle twice the present load without expanding if more money were available.

Heart Ailment Top Killer In California for '52

SACRAMENTO —(C. N. S.)— Heart disease, cancer and accidents continued to be the leading causes of death in California during 1952, Dr. Wilton L. Halverson, state director of public health, stated in his summary report for the year.

Together these three causes accounted for about 75 per cent of the state's 103,700 deaths for the year.

But the number of deaths was offset by an estimated 258,500 births, Halverson said.

Among vital statistics reported by the director were 56,000 deaths from heart and kidney ailemnts, 15,500 from cancer and 7,300 from accidents; 757 human cases of encephalitis, 4,000 of polio and 3,200 of tuberculosis of which about 1,800 were fatal; 77,000 marriages.

Cuba is the largest island in the Carribbean Sea, containing 41,634 square miles.

Eisenhower Urges Nation Support March of Dimes

President-elect Eisenhower meets 1953 March of Dimes Poster Girls Pamela (left) and Patricia O'Neil, of Raleigh, N. C.

NEW YORK CITY—President-elect Dwight D. Eisenhower called on the American public to support the 1953 March of Dimes being conducted throughout the nation during all of January.

He joined in the annual appeal after meeting the two Raleigh, N.C., sisters who are pictured on the 1953 March of Dimes poster. They are Patricia, 6, and five-year-old Pamela O'Neil, both of whom were stricken with polio but now are recovered completely.

"It's hard to believe that these are the same little girls whose pictures are on the March of Dimes poster," he noted. "Now they're completely recovered from polio, thanks to the generosity of the American people."

He urged all Americans "to help the others like them by joining the March of Dimes."

Later, he joined the poster girls in making a short film which is being shown by television stations throughout the nation.

This year's March of Dimes follows the all-time record polio epidemic of 1952 in which more than 55,000 were stricken. At the beginning of 1953, there were 58,000 polio victims of former years still undergoing treatment, with financial help from local March of Dimes chapters.

SOCIAL SECURITY REPRESENTATIVE DUE JANUARY 26

According to William Royle, manager of the Reno field office of the Social Security Administration, reports that a representative from that office will be at the Justice Court in Truckee on Monday, January 26, from 10:15 to 11:30 a.m. to serve those having business to transact in connection with the operation or benefits of the federal old age and survivors insurance.

Royle pointed out that one of the 1952 changes in the social security law provides that active military service at any time from September 16, 1940 through December 31, 1953, is now covered by social security. Prior to the passage of the 1952 amendments, no service after July 1947 was covered. This means that for each month of military service, an individual can be credited with $160 in wages toward an insured status under social security.

World's newest V8 powers
BUICK'S
GREATEST CARS
IN 50 GREAT YEARS

HERE you see pictured the Golden Anniversary ROADMASTER — engineered, styled, powered and bodied to be fully worthy of its paragon role in this fiftieth year of Buick building.

A quick listing of simple facts will reveal just cause for celebration.

★ **It has the world's newest V8 engine.** *Vertical valves; 12-volt electrical system; 180 pounds lighter; entire engine is so compact, a new, more maneuverable chassis has been built around it.*

★ **It has 188 Fireball horsepower.** *A new Buick record; engine horsepower per pound increased 40%.*

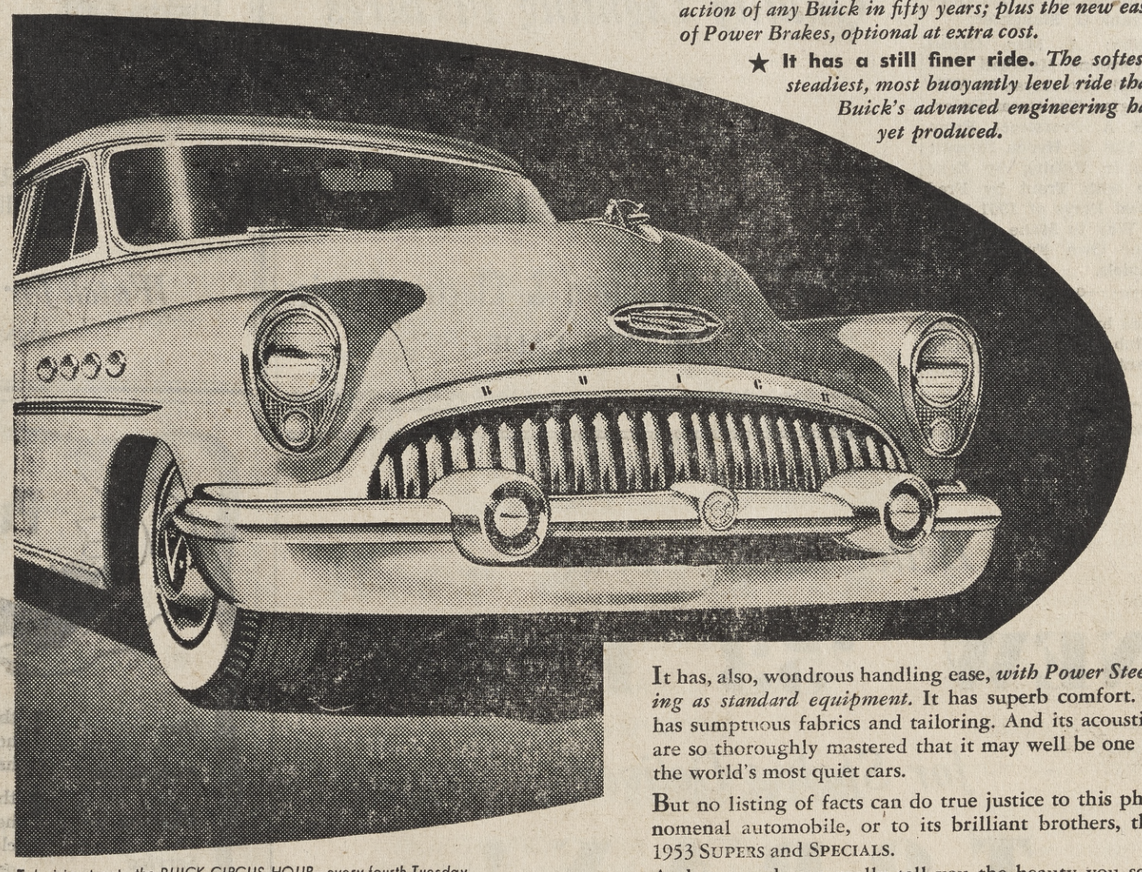
★ **It has a compression ratio of 8.5 to 1.** *Highest compression on the American scene today; bettered fuel economy.*

★ **It has a dynamic-flow muffler.** *For the first time in automotive history, a muffler with zero power loss.*

★ **It has a new Twin-Turbine Dynaflow Drive.** *Now adds far swifter, quieter, more efficient getaway to infinite smoothness at all speed ranges.*

★ **It has new braking power.** *Most powerful braking action of any Buick in fifty years; plus the new ease of Power Brakes, optional at extra cost.*

★ **It has a still finer ride.** *The softest, steadiest, most buoyantly level ride that Buick's advanced engineering has yet produced.*



Television treat—the BUICK CIRCUS HOUR—every fourth Tuesday.

It has, also, wondrous handling ease, *with Power Steering as standard equipment.* It has superb comfort. It has sumptuous fabrics and tailoring. And its acoustics are so thoroughly mastered that it may well be one of the world's most quiet cars.

But no listing of facts can do true justice to this phenomenal automobile, or to its brilliant brothers, the 1953 SUPERS and SPECIALS.

And no words can really tell you the beauty you see, the comfort you feel, the excitement you experience—when you look at and drive any one of these big, beautiful, bounteous Buicks for 1953.

Will you come in and see for yourself that these are, in simple truth, Buick's greatest cars in five brilliant decades?

Equipment, accessories, trim and models are subject to change without notice.

TAHOE TOPICS

(Continued from Page 3)

tioned home from university and his brother, Clifford, was at home during the same period for a ten day furlough from the Alameda Naval Air Station.

Sacramentans who opened summer homes on the lake shore over the past weekend included Mr. and Mrs. Weldon D. Patterson with a party of house guests; Mr. and Mrs. C. Mayhew; Dr. and Mrs. Chester Guernsey and family, who enjoyed a few days frolic in the snow at their Homewood home.

Visitors at the Dick Carnell home in Tahoe City during the past weekend were the Misses Myrtle and Dorothy Coates of Reno. The sisters are students of the University of Nevada.

This ends the "home town news" for one more week and here's hoping it will not be too many weeks until all the absentees will be at home again or on their way home and the rest of us "stay at homes" busily preparing for the longed-for spring season.

Seeks $27,000 Damages For Fall Injuries

AUBURN— Walter Mazzei has filed a $25,000 damage action for injuries he says were suffered in a mountain resort when he fell through a lunch room trap door last April. Named as defendants in the action are Sherman and Jane Reams, proprietors of the resort, Sitski of Cisco.

Mazzei also asks $2,000 for loss of wages during the time he was disabled from the fall.

Killing Power, Not Firepower, Primary Goal of U.S. Army

by ARMY NEWS SERVICE

The American public has been told that a Russian Army Infantry division has ten per cent more firepower on a man-to-man basis than a larger United States Army infantry division.

This is true.

This statement has led many Americans to believe that Russian divisions are organized more efficiently than American divisions.

This is not true.

The U. S. Army division is a highly technical fighting machine, and because of its organization it is the most lethal the world ever has seen. It has more killing power than any similar combat unit ever created.

This has been proved in Korea, where the Reds have suffered ten battle casualties to our one.

A U. S. infantry division moves faster, gets into action quicker, kills more efficiently, and sustains itself in combat longer than any division of any other army anywhere in the world — on either side of the Iron Curtain.

Not only does the U. S. Army have more killing power than any other, it also provides its soldiers with better weapons, equipment, clothing, food and medical care than any other army in the world. High morale—essential to an efficient fighting force—is maintained in the U. S. Army through services available to no other army. The American public would not stand for abolition of a single one of them.

The single word that has misled many Americans is "firepower."

"Firepower" is synonymous in the minds of most Americans with killing power.

Yet, in the U. S. Army—which created the word "firepower"—there is a distinct difference.

Firepower is a yardstick used to measure the maximum capability of weapons. It is not a gauge of a fighting unit's efficiency.

NIGHT ACTION! A 155-millimeter howitzer in Korea fires on Communist positions. Superior weapons such as this, manned by highly trained soldiers, have given American divisions a decided advantage over the Reds in killing power.

* * * * *

In using firepwore as a yardstick to compare effectiveness of a U. S. infantry divsion with that of a foreign division, one assumes that all weapons are employed with full effectiveness.

Full effectiveness of every weapon never has been achieved at any one time by any division in any army. It never will be. Full effectiveness would mean absolute accuracy of every shot fired, perfect target selection, and perfect concentrations of fire—with every weapon of the division in action and unaffected by the fire of the enemy.

Clearly, this is impossible. Hence, firepower, in itself, is not an accurate system of measuring a division's combat efficiency. There is no simple formula that will show a combat unit of one country to be ten, 20 or 50 per cent better or worse than a unit of another country.

A division's combat efficiency—killing power—depends not only on the number of yeapons it has but also on the skill of the men who use them, dependable communications for fire direction, ability to get the weapons to the proper place at the proper time, a ready supply of ammunition, maintenance and myriad other factors.

This means an effective combat force must have many highly-skilled specialists who, although not actually firing a gun themselves, are necessary for the unit to bring it full firepower into action on a given point at a moment's notice.

This is effective firepower—killing power—and the U. S. Army infantry division has far more of it than any similar unit in any other army anywhere.

Three Admit Burglaries Of Tahoe Homes

PLACERVILLE— Three Mather Field airmen accused of burglarizing two cabins near Lake Tahoe last November have entered pleas of guilty and will hear a probation report and judgment January 23 in El Dorado County superior court.

Howard Popken admitted entering the Biebrach Martin and Wayland Gilkerson home at the lake. Harry Arthur and James D. Conner said they entered one of the homes but not the other.

They told officers they had been in search of food and warmth after spending the night in sleeping bags near the summer homes.

Bank of America Resources Pass $8 Billion Mark!

New Records Set in Deposits, Loans and Capital Funds

Its statement of condition as of the end of 1952, just released, shows Bank of America has exceeded $8 billion in total resources, and has attained new records in deposits, loans and capital funds.

Total resources for the bank stood at $8,201,689,368, which is a gain of $670,392,441 during the year. Adding the subsidiary Bank of America-New York (International), the grand total of resources is $8,300,231,823, which is $682,971,719 higher than a year ago.

DEPOSITS INCREASE

Bank of America deposits as of December 31, 1952, totaled $7,485,116,183, a 12 months gain of $669,249,388.

Loans outstanding at the year end totalled $4,069,150,471, an increase of $436,465,122 over the previous year end.

Investments in securities aggregated $2,413,852,775, which is $25,657,869 lower than last year.

CAPITAL FUNDS UP

Total capital funds of the bank rose to $424,302,145, of which $11,916,287 was added from retained 1952 earnings. In addition to these capital funds, $51,423,848 was held in reserve for possible loan losses. Total increase for the year in this reserve and capital funds was $16,731,752.

Net operating earnings before provision for Federal income taxes were $103,316,287, as compared with $96,794,581 for 1951. After provision for these taxes and transfer of $10,000,000 to the reserve for possible loan losses, net profit remaining was $50,316,287, equivalent to $2.10 per share on the 24,000,000 shares outstanding. This compares with $50,874,581, or $2.12 per share for 1951.

President Carl F. Wente observed that Federal income taxes were equal to $1.79 per share, or 29 cents per share greater than in 1951. He stated that while high tax rates and increased operating costs had nullified the year's gains in gross earnings, he hoped that tax relief in 1953 would allow improvement to be shown next year.

LIBRARY AT SCHOOL OPEN TO PUBLIC, HOURS ARE LISTED

Beginning January 10, the Tahoe-Truckee Community Center Library, which is located on the first floor of the high school building west of Truckee, will be open to the public during the following hours:

Monday through Friday from 9:00 a.m. to 5:00 p.m., Saturday from 9 a.m. to 12:00 noon, and on Wednesday evenings from 7:00 p.m. to 9:00 p.m..

In addition to many books for children and teen-agers, the library has an adult collection also. Among the recently acquired volumes are the following.

Fiction: The Silver Chalice by Thomas B. Costain, Giant by Edna Ferber, Steamboat Gothic by Francis Keyes, Round the Bend by Nevil Shute Norway, The Dark Moment by Ann Bridge, God's Men by Pearl S. Buck, The Iranian by Elizabeth P. Moss, 10,000 Tom Toms by Jens Larsen, The Velvet Doublet by James Street, The Galileans by Frank G. Slaughter;

Non-Fiction: A Man Called Peter by Caroline Marshall, Beyond the High Himalayas by William O. Douglas, The Great Enterprise by H. A. Overstreet, From Under My Hat by Hedda Hopper, Adventures in Fishing by Zane Grey, Fun with Trout by Fred Everett, Best Plays of 1951-1952, The Easy Way to Make and Remodel Your Own Furniture by George Daniels.

The adobe building housing the Officers' Club in the San Francisco Presidio antedates Mission Dolores.

SQUAW WILL HOLD ANNUAL MEET ON SUNDAY MORN

SQUAW VALLEY— Under the official nod of the War West Ski Association, Squaw Valley ski club plans to host its fourth annual Birthday Slalom Sunday, January 11. Cut to single Class C event because of the heavy attendance in previous years, club president Frank Titus revealed arrangements to handle about 70 competitors.

Burdened by heavy snow falls this week, competition crews will have several feet of new powder to mash down by race time. Stan Tomlinson, ski school director, will mark out the slalom course again. About 50 gates will be lined up parallel to the main chair lift. Starting point will be mid-way up the Headwall, allowing 1000 foot vertical drop. Two Class A racers are slated to forerun the slalom—Bumps Woronovsky of Squaw Valley and Rusty Frodenberg, Tahoe City's Olympic aspirant.

Entry deadline is 6 p.m. Saturday. FWSA race cards must be presented and the usual fee charged by the FWSA will again be collected. Complimentary lift will be given racers and officials on race day.

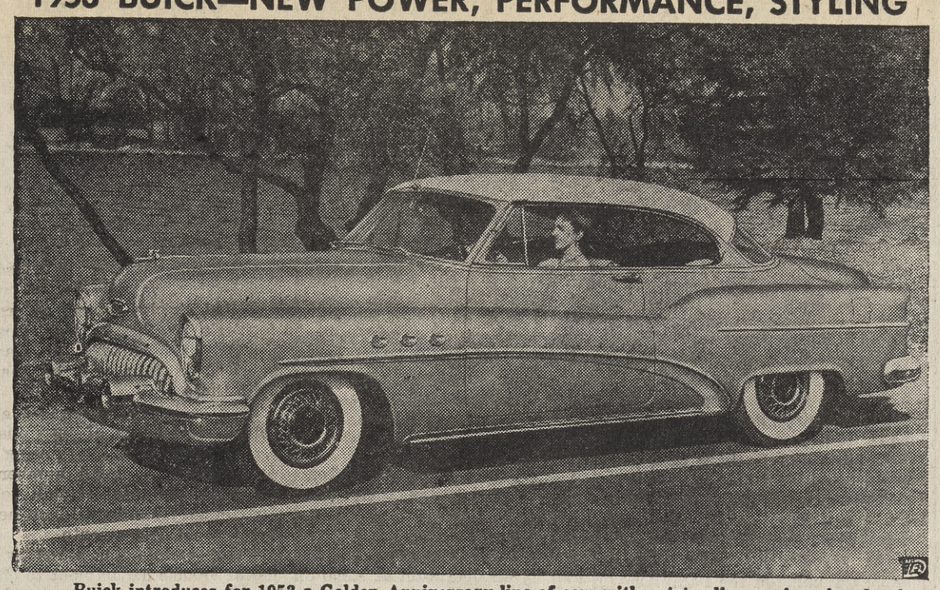
by DOUG BARRETT

Note in the city papers that Ross Buell of S.F. has been recommended by the S.F. Republican central committee to be named superintendent of the U.S. Mint in that city.....the reason I mention this able and faithful Republican here is that he is married to former Truckee girl, Lovey, daughter of Mr. and Mrs. Cecil Edmunds.....and "Ed" was for a long while Democratic committeeman from this district.....Mr. and Mrs. Matt Green, long-time Tahoe Tavern keepers, send a cheery hello to local friends by note from Sacramento this week.....Louis Goicoa has drawn two years of shore duty with our Navy.....in Japan.....His brother, Mike Goicoa, and Wayne and Elmay Philippi acquired a pair of parakeets for Christmas.....a peculiarity of the "love birds" seems to be that when they pair off they can't be bothered learning to "talk".....but singly can be taught a limited vocabulary.....Mike's half of the team came up with the first word the other day.....'kisses" it calls for.....Carl Painter working at the Truckee Post Office.....installing 50 more boxes for the patrons.....and Mrs. E. C. Bavier, the postmaster, is seeking a more practical solution than mine for finding the space for still more.....my mezzanine idea didn't seem to hit the spot.....Paul Rausch, Truckee's collector of this and that, picking up the discarded Christmas trees along the block.....and around the village.....reminding us again that time is yet a-fleeting.....'Pepe" Garcia back from his selective service physical exam in San Francisco.....with a tidy tattoo of Woody Woodpecker on his upper arm as a souvenir of the trip.....A new low in sled dogs.....the Curran sisters, Sherri, Kathi and Willi, have trained their dachhund to pull their little sled.....whilst they walk along with her.....to make up for the short hair, Lady wears a wool knit sweater.....Barbara Zorich down from Soda Springs shopping at Heller's for party supplies.....as she prepared for daughter Debbie's third birthday party on Tuesday, Jan. 6.....

1953 BUICK—NEW POWER, PERFORMANCE, STYLING



Buick introduces for 1953 a Golden Anniversary line of cars with outstanding engineering developments which include the world's newest V-8 engine and an advanced Dynaflow transmission. Pictured above is the two-door, six-passenger Riviera in the Super Series, most popular hard-top in the Buick line. Its new engine, leader of all V-8s, turns up 170 horsepower with a compression ratio of 8.5 to 1. The new Twin Turbine Dynaflow gives it vastly improved performance and greater economy with no sacrifice of Buick's completely smooth acceleration. It has a re-styled front end incorporating a sturdier grille, two-piece bumper, and a futuristic headlight arrangement. A new alligator-type hood, long-flowing body lines, new moldings and ventiports, and horizontal rear fenders with bullet-shaped tail lights, give the car an ultra-modern, sleek appearance. The interior features fresh new colors and tasteful trim. Its wheelbase is 121½ inches and offered as optional equipment are wire wheel covers and power steering.

FLINT, MICH. — Buick today presented its 1953 Golden Anniversary line of cars, featuring a high compression, valve-in-head V-8 engine of new design in both the Roadmaster and Super Series, a new Twin Turbine Dynaflow that greatly improves performance and economy, and fresh new styling inside and out.

The new engine, which develops 188 horsepower in the Roadmaster and 170 in the Super, is of the 90-degree "V" type with a compression ratio of 8.5-to-1, the highest in the industry.

Buick's power steering, which proved so popular last year, has been made standard equipment on the 1953 Roadmaster and is offered as an option on the Super and Special.

Power brakes, which take 75 per cent of the effort out of braking, are offered as optional equipment on the Roadmaster.

New styling features include a new front end, new headlights modelled after those on the Buick's famed XP-300, new rear fenders and interior trim combinations unequalled for beauty and luxury.

Buick's generous-sized bodies continue to be featured in 1953. They offer the maximum roominess and comfort available in the industry.

"We have made more important styling and engineering changes in the 1953 Buick than in any model we have produced in the last 25 years," said Ivan L. Wiles, general manager of Buick and vice president of General Motors. "Our new engine and new Twin Turbine Dynaflow, coupled with our many styling improvements, make the 1953 Buick the newest car on the market today, and the most outstanding value we have ever offered the public."

Buick's 1953 Special Series is powered by the time-proven F-263 Fireball straight eight engine with stepped up horsepower and compression ratio. The improvements in the straight eight engine, plus the new Twin Turbine Dynaflow, make the Special the outstanding performer in its class.

The 1953 Buick line comes in 12 different body styles, including the Skylark sports car which will be produced in limited quantities. The wheelbase of all Roadmaster models has been reduced 4¾ inches for easier handling and parking. The wheelbase on the four-door Roadmaster sedan has been reduced from 130.2 inches to 125.5 inches, and on the two-door Roadmaster it has been reduced from 126.2 inches to 121.5 inches.

From a styling standpoint the new 1953 Buicks are new inside and out. A new and wider grille provides better cooling for the engine and gives the car a lower look. The top line of the hood has been extended forward to give a bolder appearance to the front profile. The headlights are housed in a new bezel patterned after the XP-300, and parking and directional signal lights have been incorporated into the headlight bezel.

The hub of the newly-designed steering wheel is decorated with a red, white and blue Golden Anniversary medallion with a gold replica of a 1903 Buick embossed upon it.

Sweepspear and rocker panel moldings are continued on all models. The rear windows are of the one-piece wrap-around type with no posts to obstruct the driver's vision.

Buick's V-8 engine has a piston displacement of 332 cubic inches in both the Roadmaster and Super Series. The new Twin Turbine Dynaflow takes hold with a more solid feel than its predecessor because torque multiplication has been increased, yet it retains the same smoothness of operation that has distinguished Dynaflow from other automatic transmissions. Acceleration is faster and quieter.

Power brakes, which are optional on the Roadmaster, give the driver toe-tip braking for any stop. A special safety feature permits direct braking action in case the vacuum which provides the power is lost.

Bay City Chamber Asks Study of "Beale Deal"

SAN FRANCISCO— The San Francisco Chamber of Commerce is on record in full support of a stand by its agricultural committee that no agency of the government should acquire or retain "more land than it can use or demonstrate a need for."

The policy declaration by the chamber's board of directors was the outgrowth of a recent study by the agricultural committee of continued retention of 86,000 acres of valley and foothill agricultural lands in Yuba and Nevada Counties, known as the Beale Air Force Base.

Spokesmen said the Chamber will request the Armed Services Committees of Congress to "determine the facts about land held by the Armed Services in California which is not used, for which higher uses are indicated, or for which less valuable land might be substituted."

The building which houses the National Gallery of Art in Washington, D. C., cost about 15 million dollars.

SKI CLASS PROGRAM UNDER WAY IN DISTRICT'S SCHOOLS

The fourth year of the skiing program for the Tahoe-Truckee district schools started Tuesday, January 6, with ski classes for the beginners in the Truckee Elementary School. The intermediate and advanced skiers from Truckee took their first lessons Tuesday afternoon at Crandall's Hill-Top.

The beginners and intermediate classes at high school will be held on Wednesday mornings, with the beginners working out on the high school campus and the intermediates skiing at Crandall's. The advanced skiers from the high school will ski at Squaw Valley Wednesday afternoons. The group from Donner Trail School skis at Donner Ski Ranch Wednesdays.

Kings Beach beginners ski at the school and north of the school Wednesday morning and those from Tahoe Lake School Thursday forenoons. Intermediate and advanced skiers from Kings Beach and Tahoe Lake schools work out at Granlibakken Thursdays.

This schedule will continue as above unless there is an unexpected change in enrollment in the classes. This week 225 children were enrolled in ski classes.

Instructors are William Jenkinson, Kings Beach and Tahoe Lake schools; George (Bud) Zorich, Truckee elementary, Donner Trail and high school beginners; Gordon Butterfield, director, ski team coach and instructor for high school intermediate and advanced skiers.

We care for your car

● Giving your car the care it deserves is *our* business—and that means a lot more than just keeping you supplied with gasoline and oil. It means the top service that adds thousands of miles to the life of your car.

Our welcome mat has always been out for you—and in the year ahead we'll continue to be on the job—doing everything we can to keep your gas tank filled, your car serviced and rolling smoothly.

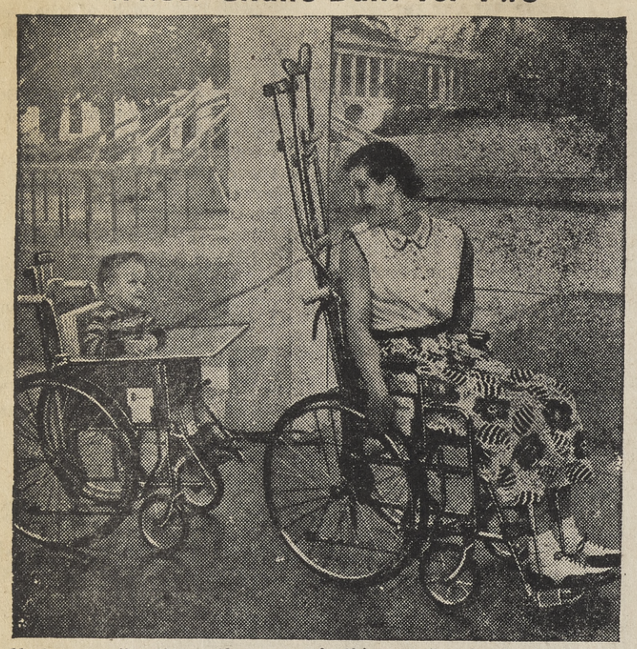
Wheel Chairs Built for Two



Mother supplies the motive power in this new "tandem" wheel chair arrangement being used by Mrs. Victor Masters, 31, and two-year-old son, Mike, both polio patients at Georgia Warm Springs where many others are recovering with March of Dimes aid. Mrs. Masters' husband, a missionary in Africa, and a four-year-old daughter died of the disease in a Southern Rhodesian hospital. Unique hookup device is used.

FATHER OF LOCAL MAN EXPIRES AT AUBURN HOSPITAL

Funeral services were held at the Masonic Temple at Auburn Monday afternoon for Edgar Virgil Cain, 52, superintendent of the Auburn Joint Elementary School, who passed away following a heart ailment in the Highland General Hospital at Auburn.

Cain was a prominent northern California educator and before going to Auburn, had been superintendent in Red Bluff and Gridley. He was active in the Masonic Lodge and Shrine and was a member of the Auburn Rotary Club.

Survivors include a son, Robert Neil Cain, employed as a pharmacist at Loynd's Truckee Drug; a daughter, Mrs. Barbara Graham of Napa, and his wife, Marguerite, of Auburn. He also leaves five sisters.

This week the governing board of the Auburn school acted to change the name of the Palm Avenue School to the E. V. Cain School as a tribute to the late superintendent. Cain was instrumental in securing the school to forestall overcrowding of Auburn schools. When final construction plans have been completed, 28 classrooms and two multi-purpose rooms will have been achieved under his leadership.

JEAN COZZALIO IS BETROTHED

Announced recently was the engagement of Miss Jean Cozzalio, daughter of Dr. and Mrs. A. A. Cozzalio of Reno and granddaughter of Mr. and Mrs. Frank A. Titus and Mrs. Victor Cozzalio, all of Truckee, to Lt. George G. Assuras of McGill. No date has been set for the wedding.

Miss Cozzalio is a graduate of Reno schools and University of Nevada, where she was affiliated with Delta Delta Delta. She is now teaching in McGill schools.

Lt. Assuras is also a UN graduate. He is now in the U.S. corps of army engineers and will be stationed in Europe soon.

o

Zydner Here—
P. J. Zydner came from Bakersfield to look after their local property this week.

Ill at Reno—
Mrs. E. Hintz is recuperating following an operation at Reno on Sunday.

REGISTRATION OF VEHICLES HERE JANUARY 19 - 24

A crew of registration clerks from the division of registration, department of motor vehicles, will be in Truckee at the Highway Patrol office from January 19 through 24 for the purpose of handling registration renewals and other problems for local car and truck owners.

In the meantime registration certificates may be mailed with certified checks, money orders or cashier's checks to the department's headquarters in Sacramento and tabs will be mailed from there.

Most registered owners have received statements of fees due in forms delivered by mail during the past month. A small number of the 5,500,000 total remain to be distributed from department headquarters at Sacramento.

Every recipient is asked by the motor vehicle department to check the description of the car and the names and addresses of registered and legal owners for accuracy before presenting the statements in duplicate at renewal offices.

When the fees are paid in person, the original of the statement is validated and returned immediately to the applicant, together with 1953 tabs (black numerals, white background) to be attached to the 1951 plates. The validated statement serves as the 1953 registration certificate to be displayed in the vehicle. Any person who fails to receive a 1953 statement should use a 1952 registration certificate in renewing.

Penalties for failure to renew vehicle registration and license become effective at midnight, February 4.

o

From Mountain View—
Mr. and Mrs. James Welch and family of Mountain View were guests of Mr. and Mrs. M. E. Brown last week.

Service Men Meet—
Mr. and Mrs. Louis Landry had their nephew, Gene Marchi, as their Christmas guest. March is in the U. S. Navy, has seen action near Korea. He related that he became acquainted with two Truckee men who are on his ship which recently received a citation.

Return Here—
Mrs. Ray Roberts and son, Ray, returned to Truckee from North San Juan this week.

To Old Mexico—
Mr. and Mrs. Harold Langille are leaving today by way of Bishop, Calif., for an indefinite stay in old Mexico.

To Fort Bragg—
Mr. and Mrs. J. E. Walker and family returned Saturday after a visit to Fort Bragg.

Monday Birthdate—
Among those observing birthdates Monday, January 5, was Brian, son of Mr. and Mrs. R. E. Smart, who was two years old.

In Hospital—
Rex Thomas is a patient in the Tahoe Forest Hospital. Mrs. Thomas is attending to their local jewelry store business during his illness.

Return Home—
Mr. and Mrs. Howard Newsham and daughter returned home on Saturday after spending the holidays with relatives and friends in San Francisco.

CARD OF THANKS

We are very appreciative of the kind messages and deeds given during our recent bereavement.

Mrs. Louis Curutchebery and family.

NEW TRIAL IS BEING STUDIED

After hearing attorneys argue for both sides, Superior Judge James Snell took under submission at Nevada City Edward J. Johnson's motion for a new trial. He was recently turned down by a jury in his demand for $100,000 for injuries he said resulted from a fall from the porch of the home of Jarol and Barbara Jansen at Soda Springs.

o

Rablins at Roseville—
Mr. and Mrs. John M. Rablin and daughter, Jesse, are now living at Roseville, where the former has been transferred by the Southern Pacific.

Roseville Visitors—
Mr. and Mrs. Ken W. Faulkner visited relatives at Roseville during the weekend.

Mothers Here—
Mr. and Mrs. Wayne Philippi had their mothers, Mesdames Amanda Philippi and Elmay Lawrence, of Portland, Ore., as their guests during the recent holidays.

In Hospital—
Mr. and Mrs. Robert Saunders are both patients at Tahoe Forest Hospital recovering from attacks of pneumonia. Saunders is manager of the Truckee branch of Bank of America.

In San Francisco—
Mr. and Mrs. James McIver were San Francisco visitors last week.
